Bootblacking 101 Instructors: boi jen / boy ty

Whether you wear Leather because it makes you feel good, look good, or you're a fetishist, Bootblacking 101 will give you the tools to lengthen your experience in your favorite Leather. No matter what your reason for attending, as a service to someone else, satisfaction for yourself, or to have a great excuse to get closer to someone else's Leather, this class will cover ALL of the basic care needs for your favorite pieces (not just your boots, but those are fun too!). With experiences from being a community bootblack and a military veteran, facilitators, boi Jen and boy Ty, will cover a wide range of topics from erotic service to the most amazing technical shine you could imagine.

CBT 101 Instructor: Bear Man

I received my first ball at about 16 months of age. About twenty years later, I started playing with balls in a whole new way. From titillation to torment, a man's balls are a whole lot more fun than the ones we started with so many years ago. Learn to explore the myriad of pleasures to be found with dicks and balls. This pants-off seminar will cover anatomy, safety, techniques, and a whole lot of fun. For this class it is suggested that attendees shave or trim their scrotal hair.

CBT 401 Instructor: Bear Man

You've heard about scrotal saline infusion and you've seen the pictures. This is your opportunity to try it and learn how it is done. As with all LeatherWerks classes this is a workshop with limited attendance to allow everyone to participate. **ADVANCE REGISTRATION IS REQUIRED TO INSURE YOUR PLACE IN THIS CLASS.**

Everyone who attends will learn safe technique for this advanced form of Cock and Ball play. And, everyone who attends this seminar will have the opportunity to experience walking around with an extra pound or two swinging between his legs. This class is scheduled for a Friday to allow time for your body to absorb the extra fluid before you return to work on Monday. It might be just little too obvious to walk into work the next day with a grapefruit in your pants. This class tends to run a bit later than the standard 1-½ hours. Please shave your scrotum 24-48 hours before the class.

Electricity 101 Instructor: Andy

Electricity can light up your life in more ways than one. Your body is "pre-wired" and started to use electricity well before you were born. Now as adults we can use electricity to cool our homes and heat up our playtime. Learn the important safety precautions and learn how to control electricity for personal pleasure.

What resources for personal growth are available? This seminar is designed to help you answer these questions and get more satisfaction from your playtime. Sir Jason is the ideal instructor. Sir Jason's many years experience allowed him to earn the 2009 Southeast LeatherSir title This series is \$100.00 and \$80.00 for Lifestyle Club Members.

Sir Jason, SE LeatherSIR 2009 and a partner at LeatherWerks, becomes an artist when he gets a flogger in hand a bottom to entertain. One of Sir Jason's passions is introducing men to flogging. We are pleased to have Sir Jason offering this introductory flogging class at LeatherWerks. This class will cover the various types of flogger, how to hold them, how to use them, safe strike zones and if you are lucky enough to be the bottom how to receive and process the sensations of a flogging.

Kink Play 101 Instructors: Andy and Piggy Boo

If you are curious but have never had the opportunity to explore kink play this hands on pants off intro class is the one for you. This intro class is your opportunity to ask questions and experience hands on sensations associated with kink and S & M play. Topics discussed will include an overview of all of the other classes offered by LeatherWerks and more!

Mind Fuck Instructor: Barclay

Endorphins aren't the only body chemical that can be put to good use in SM play--adrenaline is too. This program will explore mindfuck and playing with fear. Mindfuck, simply, is making someone think something is happening that isn't really happening. It can range from mild to wild. We'll look at that entire spectrum and think about how to use these techniques in a variety of scenes.

Mummification 101 Instructor: Todd Storey

Todd Storey Mr. Ft Lauderdale Rubber 2011 is bringing his many years of bondage experience to the men of LeatherWerks. Mummification is one of the most intense forms of bondage. It is tight, restrictive, and totally immobilizing. When fully mummified, some subs even enter a totally different headspace; once the body accepts that it cannot move, the mind tends to go to places it normally wouldn't (known as "floating"). The mummification class will discuss materials (such as plastic wrap/duct tape), tools, wrapping methods (including how one Dom can safely wrap a sub without help), and safety (including proper cushioning of pressure points, overheating, and quick release). We will also try some of the fun things you can do to the lucky mummy.

Paddling/Spanking Instructor: Bear Man

Bear Man, co-owner of LeatherWerks and General Manager of PaddleWerks (www.paddlewerks.com) will be leading this workshop. This introductory class will explore basic paddling and spanking. You will learn some of the various techniques for paddling and spanking as well as the more common materials for paddles. Enjoy the glow of a gently warmed ass and get an introduction to more aggressive action.

Pumping 101 Instructor: Eric Lawrence

Does it really work? Is it safe? How does it work? Is it fun? Does it Hurt? Does it feel good? What equipment do I need? What size cylinder or cylinders should I buy? What happens if I buy the wrong size cylinder? How do I pick the right pump? Can I pump just my balls? This workshop was created to answer these questions and more. This is a workshop where you will get the opportunity to try pumping.

Puppy Play 101 Instructor: David Howell

Exploring the joys of puppy play through the eyes of both pup and handler.

- A look at the different Dom/sub roles within puppy play as well as its many variations.
- The Do's and Don'ts of a pup mosh: How to handle a puppy going in and out of pup headspace. A guide to playing safely and the fun you can have!
- All of this followed by an all out puppy mosh for all of those attending.

Bondage in Rubber Instructor: Barclay

Rubber as bondage, bondage in rubber--each with its own appeal and each requiring its own skills. We'll look at both in this class, covering good basic bondage and safety skills with special attention to making it all happen in the tight, constrictive embrace of a rubber skin.

Shaving 101 Instructor: Bear Man

At the first sign of puberty, a little peach fuzz, boys go racing to shave their faces; unfortunately, a few decades later the excitement is gone and shaving is just another chore. At some point many guys try to take their face shaving skills to body shaving. The experience and the results can be so unpleasant that there is no second attempt. Body shaving can be highly erotic, it can clearly reveal your hard work in the gym, it can take a few years off your appearance. This class is designed to provide you with the core skills of body shaving: skin preparation, creams and lubricants, various types of razors and aftercare. There is nothing more erotic than a shave with a straight razor this class will also include an introduction to straight razors.

Sounds 101 Instructor: Bear Man

Playing with sounds is one of the most popular classes offered at LeatherWerks! It is easy to play with the outside of a penis most; of us have been doing so since the early days of puberty. Playing with the inside offers a whole new world of excitement. Bear Man will guide you through the safe exploration of this especially enjoyable and potentially powerful fantasy trip.

Suspension Instructor: Tom Kelley, MIR 2000

This session will be aimed to teach about suspension and enjoying it in a scene. In this case, we won't be using rope, but instead, plastic wrap. That's right! So come on out to learn, see and help with this unique type of suspension.
